3.0 Discuss and act upon: Approve up to $1,000 to be spent from the Open Space Account to conduct an appraisal on the Wells Community Forest properties located in Lebanon
Town Planner P. Chester and Conservation and Agriculture Vice-Chair J. Fitter introduced a proposal from the Town of Columbia that would create a community forest that would include land in the Town of Lebanon.
Columbia Town Administrator Mark Walter said Columbia has long hoped to do something with this land and recently purchased another property in Wells Woods that had been privately owned. He said Columbia already jointly administers another piece of property within Wells Woods with the State of Connecticut.
M. Walter said Columbia has been working with the Trust for Public Land on the Wells Woods project. H. Lawler of the Trust for Public Land discussed the non-profit organization which helps communities work with each other, the state, and other entities to acquire funding to preserve land for public use. She also discussed the Wells Community Forest project and said Lebanon residents would benefit from the entire project, noting there could be spur trails from the airline trail that would add value to the community.
P. Chester said if the Town goes through with the appraisal there would likely need to be some matching funds from the Town of Lebanon at some point funded through the Open Space Account for the actual purchase of the land.
M. Walter said that given the location of the parcel in Lebanon that Lebanon is essential to executing the project because the property in Lebanon includes the access to the potential
community forest via the airline trail. H. Lawler noted the state looks favorably on collaborative efforts between towns.

B. Petrie said the project appears to be in line with other actions they have funded through the Open Space Account.

B. Petrie MOVED to approve up to $1,000 to be spent from the Open Space Account #220-00-461-2701-0060 to conduct an appraisal on the Wells Community Forest properties located in Lebanon. J. Bendoraitis SECONDED.

The cost to bring it back on maintenance would be $1,300.00. Since the Board of Selectmen was unable to fill the commission within 30 days, they must rescind the previous motion and later move to reestablish the commission. He stated the initial motion had been made by B. Petrie and seconded by J. Bendoraitis. The motion to rescind should be done the same way.

MOTION CARRIED 3:0:0

15.5 Issue new motion establishing a Charter Commission
The Board of Selectmen discussed statutory requirements for establishing a Charter Commission and for potential appointees. G. Coutu said a 5-member board would make the statutory requirements simpler than trying to fill a 7-member board. J. Bendoraitis noted that would also lower the quorum. B. Petrie asked if the other Selectmen would prefer to wait until they had more applicants to issue the motion establishing a commission. J. Bendoraitis said if the goal is still to bring the charter to the ballot in November 2019, then they should act to establish the commission and appoint members tonight. He said the schedule would be too tight otherwise.

J. Bendoraitis MOVED to establish a Charter Commission of no more than six members for the purpose of developing a charter for the Town of Lebanon with a deadline for the commission to complete its work no later than June 7, 2019. B. Petrie SECONDED.
