J. Tuttle reported there is an ongoing issue with fuel clarity (sedimentation and particles) in the fuel tank at public works. Eric McKinney from Service Station Equipment Inc. explained the two options his company can offer: 1) vacuum out the tank or 2) biocide the tank, vacuuming out tank bottom and filtering the diesel fuel which would filter the particles from the existing fuel in the tank and then flush and/or pump the tank all the way down with coordination with the fuel delivery company. J. Tuttle recommended an annual maintenance schedule for the fuel storage.

4.2 Authorizing Donation to the Jonathan Trumbull Jr. House Endowment Fund: J. Bendoraitis explained a $100.00 donation was left in the donation box at the museum and the BOS has to authorize the investment of this donation.
B. Petrie MOVED to deposit a $100.00 donation into the Town of Lebanon endowment account, the Franklin U.S. Government Securities Fund. J. Bendoraitis SECONDED. MOTION CARRIED 3:0:0.

J. Bendoraitis MOVED to add item 4.3: Discuss and act upon transferring the Manning gift to the Town of Lebanon endowment fund. B. Petrie SECONDED. MOTION CARRIED 3:0:0.

4.3 Discuss and act upon transferring the Manning gift to the Town of Lebanon Endowment Fund: J. Bendoraitis explained in 2007 when the town purchased 26 acres for the senior center, Oliver Manning also donated an approximately 2 acre conservation easement (open space) piece of land as well as $10,000.00 to be put in a mutual fund to support the establishment and maintenance of a walking path, park area, an existing spring and land conservation in the open space area.

J. Bendoraitis said it will take quite a while for enough money to accumulate to really be able to do anything at all with the property. The gift is currently being held in Ameriprise and he suggested moving the money into the pool of the endowment account and in the process of moving the money, to liquidate it and put the proceeds into the Franklin U.S. Government Securities Fund, trying to get to the 65/35 balance in the account.

J. Bendoraitis MOVED to liquidate the Manning gift from the Ameriprise account and move the proceeds into the Franklin U.S. Government Securities Fund. G. Coutu SECONDED. J. Bendoraitis noted that Manning letter states “We plan to give the Town of Lebanon $10,000.00 before December 31, 2007. Our gift will be by way of a mutual fund; however, we understand that the town may invest it differently.”

MOTION CARRIED 3:0:0.

J. Bendoraitis suggested refreshing the Conservation and Agriculture Commission that the town has this money, in the event the commission has an idea for a small project, as the town is permitted to use 2/3 of the gain since the initial investment. He said as of 5/13/16 the value of the account was $15,112.94 so approximately $3,400.00 would be available for use.

5.0 New Business
Discuss and act upon:
5.1 Discussion with Public Works Building Committee:

R. Cady Jr., Chairman of the Public Works Building Committee, explained the committee will meet next week and will discuss the legal issue of the town green ownership and how it could possibly delay the building of the new public works facility on the current town fire safety complex site. He is looking for direction and/or thoughts from the board to take back to the committee.

Discussion followed on moving the proposed building project to either of the other locations under consideration. B. Petrie said the Plan of Conservation and Development (POCD) does not favor a town garage location in the center of town and cleaning up the current public works garage site would be the town’s responsibility. She favors the transfer station site. G. Coutu agreed the building has to be functional and safe, not aesthetically pleasing.
Costs were developed for all four properties under consideration. The possibility of two fuel depot locations was discussed.

The board thanked R. Cady Jr. for being proactive.

5.2 Authorizing the First Selectman to sign Agreement with Service Station Equipment Inc. for Public Works Tank Environmental Services (continued):

Tuttle explained the capabilities of the Bobcat All-Wheel Steer Loader and the significant savings achieved ($21,140.53) with accepting the National Joint Powers Alliance (NJPA) contract. He said the steering mechanism is beneficial to municipal use. Discussion followed on the use of the machine with snow blower attachment.

J. Bendoraitis MOVED to authorize expenditure of up to $70,000.00 (including possible purchase of forest package) to purchase a A770 T4 Bobcat All-Wheel Steer Loader and to waive the bidding requirement due to the savings with the NJPA and specific product of the all-wheel steer. B. Petrie SECONDED. MOTION CARRIED 3:0:0.

J. Bendoraitis said that the current pick-up should be kept in use until such time repairs would become too costly. At that time, he emphasized the truck be disposed of, but not replaced. MOTION CARRIED 3:0:0.

J. Bendoraitis asked J. Tuttle to provide a list to establish the purpose of each vehicle in the public works fleet.
