Correspondence – Okonuk recapped the history of “Heritage Hymn” the official Town song which was written by resident Alberta “Bertie” Hawkins and was performed by the Community Chorus at Town Meeting in 2009. Hawkins obtained the copyright for the song in 2000, and has had it professionally printed with cover artwork by resident Nancy Bergeron. Hawkins has given a copy of “Heritage Hymn” to the Town and it will be kept in perpetuity in the Town vault with the Selectmen’s permanent documents. Copies are available at all schools and churches and may be reproduced for personal and community use.

2.0 Discuss and act upon Report and Recommendations from the Treasurer
Forrest provided an overview of the reports for the month of May. He and the Selectmen noted that the PPG stock in the Library portfolio needs to be monitored and reviewed. Discussion followed as to specific accounts, transfers and yields.

Motion made by Okonuk/Bendoraitis to add Item 2.1 to the agenda: Discuss and act upon combining endowment funds. Vote: Yes, unanimous.

2.1 Okonuk explained that she has spent several hours thoroughly researching all files relating to Hugh Trumbull Adams and has found nothing that sets parameters for how the endowments are to be managed, which confirms what Bendoraitis had found in his research of the minutes in the vault. Okonuk has spoken to the Auditor as well and he said that the “pooling” of the accounts is dependent on the original intent of the trust and he will not give an opinion on this but will review the accounts during his audit. Discussion followed regarding the pros and cons of combining the portfolios. Finelli is strongly opposed to the idea of combining the portfolios as she would like them to remain as they were originally set up by Mr. Adams. Bendoraitis is in favor of the idea as it would simplify accounting and save on transaction fees; the income would be divided among the three funds on a pro-rata basis. He proposed revising the investment policy to reflect these intentions. Okonuk agreed with Bendoraitis. Motion made by Okonuk/Bendoraitis to revise the Town of Lebanon Investment Policy for Endowments and Donations by adding the following under 1. Policy: In order to minimize trade costs and allow for greater diversification, it shall be the policy to manage the endowments and donations funds in a pool with each endowment/donation owning a pro-rata share of the pool as well as the income generated (unless these are specific, agreed upon stipulations attached to an endowment/donation that would necessitate segregation of assets). Vote: Yes (2) Okonuk and Bendoraitis, No (1) Finelli. Motion carries.

Motion made by Okonuk/Bendoraitis to authorize the Town Treasurer to work with Edward Jones to pool all investment assets in the Jonathan Trumbull Library Fund, the Jonathan Trumbull Jr. House Fund and the Mary Trumbull Adams Community Center Fund on behalf of the Town of Lebanon and to facilitate such change by the end of June 2014. The Town shall continue to calculate the value of all three funds individually based on their pro-rata share of the total fund. Vote: Yes (2) Okonuk and Bendoraitis, No (1) Finelli. Motion carries.

3.0 Departmental Update None for this month.

5.3 Brandon Handfield, Director of Public Works was present to discuss improving the time and attendance reporting and payroll processing for the Department of Public Works (DPW). Currently the DPW uses an outdated time card “punch” system that makes it difficult to track irregular work hours, earned benefits and overtime. Handfield has been working with Finance Director Veronica Calvert to search for new system using proximity badges and key fobs that would track time electronically work in conjunction with “Paychex” the Town’s current payroll system. The system he found could eventually be expanded to include other Town buildings such as the Town Hall, Library and Senior Center and eliminate the need for hand-written time sheets. Discussion followed as to whether or not the new system should be “cloud” or server based for back up, as the Town is currently in the process of converting its back up system to the cloud. All agreed that it would be sensible to start this new system with cloud back up. Calvert will contact Paychex Systems to see what other municipalities use this time clock system and gather reviews. Motion made by Bendoraitis/Finelli to authorize up to $400 from TIP for the purchase of a time clock unit, and $200 from the computer account for the software, license and service agreement, pending favorable reviews from other municipalities. Vote: Yes, unanimous.

5.4 Handfield was also present to discuss entering into a contract with Pasteryak Paving for the paving of various town roads. Under the Town’s Competitive Bidding Ordinance the Town may purchase items under State bids and/or contract those who have used a sealed bid procedure (Section 3.c). Motion made by Bendoraitis/Finelli to authorize the Town to enter into an agreement with Charles Pasteryak, Jr. under terms of the State Bid Contract as low bidder for the paving and rehabilitation of various town roads, funds to come from FY 2014
Capital Budget in an amount not to exceed available funds. Vote: Yes, unanimous.

5.5 Alan Olenick, member of the LVFD joined the meeting to discuss the results of his work with Bendoraitis to determine the best solution for heating and air conditioning replacement in the Fire Safety Complex (FSC). Olenick and Bendoraitis looked at each side of the FSC, the Fire Department side and the Public Hall side; each of which is heated by separate furnaces. The furnace on the public side is 30+ years old and in need of replacement very soon. Currently both sections are cooled by window a/c units which are very inefficient. Bendoraitis and Olenick looked into geothermal options and conventional options. They concluded that it would be both cost and energy efficient to replace the Public side furnace with a geothermal system for both heating and cooling. The Fire Department side would be most efficiently served with a conventional furnace system for both heating and cooling. Okonuk asked Bendoraitis and Olenick to work together to develop an invitation to bid for the cooling of the Fire Dept side and to bring it back to a future meeting. No action.

5.6 Sale of Town-owned property – No action, tabled to a future meeting.
