J. Okonuk MOVED to approve the recommendation of Edward Jones to sell $40,000 of PPG stock and combine with the cash on hand ($12,658.00) for a total of $52,658.00 and purchase additional Franklin Templeton U.S. Government Securities and 2) swap out Microsoft stocks for Xerox stocks. J. Okonuk will prepare a spreadsheet to present to the Board of Finance at their next meeting asking to be allowed to over-expend this account.

5.0 New Business
Discuss and act upon:

5.1 Review Charter submittal and set Public Hearing date for public review of proposal.

J. Bendoraitis, speaking as a member of the Charter Commission, reported that most of the changes from the prior charter document were made in Article 11.

L. Finelli noted that the BOS signed a resolution on 3/4/14 to appoint the prior Town Charter Commission members and said that there was no resolution signed at the 8/24/15 BOS meeting to appoint the current Town Charter Commission members. She said a resolution is required by statute for the appointments and that Town counsel present at the meeting should have advised the BOS of such. Discussion followed on the use of the term “resolution”.

J. Okonuk said the town received a letter from the Uncas Health District on the matter of a new public health code that requires all persons to bathe in water prior to entering a pool and concerning the requirement of having a wash sink outside. She received email that the Town Planner met with the Town Sanitarian, Building Official, Town Planner, Recreation Director, Building Official, Recreation Director and the Director of the Uncas Health District and are looking at solutions. J. Okonuk will bring this to the attention of the new Board of Selectmen who will have to look at this and work with the Health District and Building Official toward a solution so the pool can open next summer. Funds would have to come from TIP or the undedicated fund balance for the Community Center. Any suggestions for solutions coming from the Recreation Commission should be brought to the Recreation Director, who will then talk to the Building Official and health Department. J. He said that the Uncas health District is leaning toward the possibility that this is a naturally occurring issue because of the bedrock the wells are drilled through. Patrick McCormick from the Uncas Health District established a procedure for well water testing. J. Okonuk will draft procedure, check with Uncas, put the information on the town’s website and do a direct email push out.

J. Okonuk stated that the town will need a place for elections and referendums once the Fire Safety Complex is no longer available early next year and the senior center may be a possibility.
