4.11 Phil Chester, Town Planner requested the Selectmen sign a Resolution authorizing the First Selectman to apply for a $20,000 grant from the CT Commission on Culture & Tourism. Chester explained that the non-matching fund grant would pay for an assessment of historical town properties and would enable the town to become a local certified government, the designation of which will allow the possibility of future grants. 4.3 The Selectmen reviewed the correspondence received from the Energy Task Force Advisory Committee regarding the promotion of Green Energy in Lebanon. The Selectmen agreed that the Energy Committee should take the lead on doing the research necessary to negotiate a better group rate on electricity for the community and after completing the research and data compilation, should then present their recommendation to the Board of Selectmen. Bendoraitis will relay the message to the Committee. No action.

4.4 Okonuk explained that she had received a suggestion from Animal Control Officer Brice Padewski, to possibly utilize the retired Senior Van for the purposes of transporting animals, in crates, to the Regional Pound. ACOs presently use their own vehicles for this purpose and receive a modest mileage stipend. Selectmen felt that the present arrangement was more cost-efficient than putting another vehicle on the road and further discussed the method by which the town could dispose of the retired van. Tom Conley, Public Works Foreman, suggested having Petrowski Auctioneers in Franklin handle the sale. The Selectmen agreed and asked Conley to make the arrangements. The Selectmen also stated that the revenue from the sale of the van should be returned to the van budget to off-set future replacement of vehicles. Motion made by Okonuk, seconded by Finelli to dispose of the retired Senior Transport Van in the most expeditious manner possible. Vote: Yes, unanimous.

4.5 The Selectmen discussed a request from the Recreation Commission regarding the installation of a water/septic line between the Lebanon Elementary School and the Ed Lazur Pavilion at the Aspinall Property. The Commission has researched their options, but as the project would involve school property, the Board of Education needs to approve it as well. The Selectmen felt that a Special Selectmen’s Meeting should be held including members of the Board of Ed, Recreation Commission, Town Sanitarian, and engineer to fully explore the options. No action.

4.12 The Selectmen discussed the Fire Marshal’s request for a review of his salary for FY 2011-12. Since this matter was discussed at the October 5, 2010 meeting, Okonuk has obtained more information pertaining to the wages of Fire Marshals in towns of similar population. She has also recently attended a meeting of the Windham Regional Council of Governments where the possibility of regionalizing the Fire Marshal position was discussed. Due to the fact that there are no concrete plans to make any regional position at this time, the Selectmen agreed that an adjustment in the Fire Marshal’s salary was long overdue. **Motion made by Bendoraitis, seconded by Okonuk to increase the Fire Marshal’s salary to $12,000.00 for FY 2011-12, and would therefore not be subject to the annual COLA. Vote: Yes, unanimous.**

8.0 Financial Reports
The Selectmen reviewed the financial reports provided by the Finance Department and found no areas of concern. Okonuk reported that she had met with Interim Accountant Jim Day and Public Works Foreman Tom Conley and had examined the Capital Budget thoroughly; specifically the balances left in specific highway/bridge line items. They determined that between funds left over from other projects and reimbursements from the State LoCIP, there would be enough available funds to cover the replacement of the Waterman Road Bridge, without having to take short-term notes. Although the Board of Finance has already authorized the Selectmen to take this matter to Town Meeting for the borrowing authorization, Okonuk will present these new financial results to the Finance Board this month to see if they wish to change their approach. The Selectmen agreed that paying for the repairs out of available funds is preferable to borrowing or bonding the money.
