6.1 Kara Fishman, Chairman of the Energy Task Force Advisory Committee, and Jim Macauley, member of the Committee, were present to discuss the application process for the Energy Block Grant. Fishman stated that the Town has been approved to apply for the grant in the amount of $46,294. The grant is administered at the state level and the deadline for applying is November 5, 2009. She explained that the Connecticut Department of Energy criteria stipulates what projects the funds may be used for, and the Office of Policy and Management has further itemized the allowable uses for the funds. Fishman provided the itemized list to the Selectmen, and explained the Energy Task Force’s recommendations. Bendoraitis pointed out that the use of the funds must be decided on now, although the funds will not be available for one to two years. Macauley added that the town should have a strategy, and earmark the funds for a specific purpose, such as the Siemens Energy Audit. Okonuk expressed concerns that if OPM is looking for detailed estimates in order to approve the grant application, the town does not yet have that for projects identified in the Siemens Study. Other possible uses were discussed including new ceiling insulation and windows in the public hall at the Fire Complex. Bendoraitis pointed out that the town has funds set aside for improvements there already. Macauley also pointed out that the initial audit showed that the overall energy usage of the FSC is fairly low, compared to the schools, which have the highest energy consumption overall, with the biggest losses identified in the 1966 wing of the Lebanon Elementary School (LES). Elementary School window replacements would be consistent with the information that the Task Force has already put forward, and since it was already identified in the preliminary study it would probably be approved. Okonuk asked Fishman if the Energy Task Force Advisory Committee would be comfortable with the Selectmen’s recommendation for use of the grant funds to replace the windows in the 1966 wing of LES, and she said yes, adding that she has a resolution that must be signed for the application process to forward. Moved by Bendoraitis, seconded by Blakeslee to designate the $46,294 Energy Block Grant for the purchase and installation of high efficiency windows for the 1966 wing of the Lebanon Elementary School. Vote: Yes, unanimous.

Moved by Blakeslee, seconded by Bendoraitis to authorize the First Selectman to sign an application for ARRA Energy Efficiency & Conservation Block Grant on behalf of the Town. Vote: Yes, unanimous.

Okonuk will contact a window contractor to get an estimate on Energy Star rated windows. She also stated that after the grant award is received, further acceptance of the grant by Town Meeting will be required.

Moved by Okonuk seconded by Blakeslee to return to the order of the agenda, and add Item 6.4 to the agenda under New Business: “Discuss the recent passing of Hugh Trumbull Adams.” Vote: Yes, unanimous.

6.4 Okonuk reported the sad news that the town’s benefactor, Hugh Trumbull Adams, passed away on October 15, 2009 at his home in New York; he was 96. His funeral was held on October 27th and he was buried alongside his parents in Greenwich, CT. Many family members, friends and associates were present, including Okonuk and Howard and Alicia Wayland. Plans are underway to hold a memorial service in Lebanon at the Congregational Church, the date and time to be announced. There will also be a memorial service at the National Cathedral in Washington, DC in his honor, tentatively scheduled for January 2010. At a future date, Okonuk would like to discuss with the Selectmen the wording to be put on the stone that was placed on the walking path on the Town Green, which was dedicated to Mr. Adams in 1996. The Town mourns his passing, and is forever in his debt.
Moved by Bendoraitis seconded by Okonuk to add Item 6.5 to the agenda under New Business: “Discuss and act upon the 2009 Agricultural Viability Grant.” Vote: Yes, unanimous.
