The LVFD is in the process of upgrading their computer server as Microsoft will no longer support their current version of Windows. Elliott had obtained a software quote of $4,240.00 and asked the Selectmen to consider contributing to the cost. Discussion followed. **Motion made by Finelli/Bendoraitis to appropriate $3,000.00 toward the cost of new software for the Galaxy electronic door opening system upgrade at the Fire Safety Complex, funds to come from TIP, Account #208-00-620-6200. Vote: Yes, unanimous.**

6.2 Elliott discussed the State Web EOC fiber optic terminal at the Fire Safety Complex. In order to make the best connection to the State Web EOC, the LVFD will need to upgrade their internet speed via Charter Cable and purchase a new router. Two options are purchasing a two line router to accommodate the State Web EOC or keep that system separate. All agreed that the State system should remain independent. Elliott will return to a future meeting with more specifics on the cost of the new router. No action.

6.2 Elliott also presented an update from the LVFD Substation Study Committee, reporting a real need for a substation in the southern and western portions of Town that fall outside of the recommended five-mile radius of the main station. Equipment in these locations would help to decrease response time. Specifics regarding the size of the proposed facilities and associated costs were discussed. It was agreed that an official, town-formed Substation Study Committee should be formed. **Motion made by Finelli/Bendoraitis to establish the formation of a seven (7) member Substation Study Committee, comprised of no more than three (3) members of the LVFD, terms to end at the completion of the project. The original request for grant funds from the Hugh Trumbull Adams Family Trust is being reduced due to the decision to reduce the scope of the project and at the request of the Trust additional local-fundraising will be initiated. **Motion made by Okonuk/Bendoraitis to approve the request from the Library Building Committee to waive the bidding requirements and to permit an extension of the contract with Jacunski-Humes Architects (JHA) for reconfiguration of plans for the Library Expansion Project, due to JHA prior work on and familiarity with the project. 13.3 The First Selectmen’s office has researched the history of appointments to the Rails to Trails Committee in an effort to discover why so many members have terms expiring in the same year. It was apparent that several errors in reappointment dates had been made over the past several decades, and that an additional Alternate position was also erroneously added. **Motion made by Okonuk/Finelli to reappoint the following members for the purpose of staggering terms as established at Town Meeting on 5/5/2003: Naomi Davidson, Peter Gandelman and Nusie Halpine for three (3) year terms to expire on 5/5/2016; Mike Lambert, Bruce Sievers and Mark Fitton for three (3) year terms to expire on 5/5/2017.
