The conversation extended to a broader conversation about communication between the board and students. The group discussed their desire to grow a more robust means to communicate, one that is proactive and encourages input and conversations. Suggestions include but are not limited to: communications between the board and schools, should be age appropriate and relevant; identify a structure to encourage leaders within each school to communicate with the board and the other schools; examine the current approach to communication and its effectiveness. The group also brainstormed ideas they want included in the statement. A draft statement will be prepared for recommendation to the full board and presented at the February 2021 board meeting.
