1. Call to Order

First Selectman K. Cwikla called the meeting to order at 5:00 PM.

2. Review status of ARPA projects

The Selectmen reviewed the following ARPA projects:

Fiber – project is complete but maintenance pre-pay portion needs to be reclassified per auditors

Pavement management study – final report will be available soon. There may be one additional invoice to come.

Asbestos abatement at Town Hall – K. Cwikla will investigate working with schools as part of their abatement which is now planned for this summer

Generator – this project is not moving forward but the Selectmen may investigate other options

FSC roof – the subcommittee members agreed to recommend moving forward with the rubber membrane proposal previously presented to the full Board of Selectmen

Playground at Tyler Field – in the absence of BOF funding, the Selectmen may fund with ARPA. B.

Petrie feels Tyler Field is too remote for a playground. The Selectmen discussed other options including potentially near the Aspinall property
