New Business:

- Today's main discussion was the Reopening of the Senior Center, possibly June 1st. Darcy has been keeping close contact with surrounding senior centers as to how they will begin to open their buildings to the public. After reading through the precautions that are mandated by the State, we found that almost all of the activities that we formally had in place for our members could not be safely offered at this time. We are planning a tag sale (following all Covid safeguard standards) on May 22nd.
