5:30 PM #IW-AR-12-1253. Lincoln Chesmer (owner/applicant), 894 Exeter Rd, Assessors Map 245, Lot 18. Clearing for cropland and improvements to wetlands crossing.

The Commission walked the site. It was the consensus of the Commission that an “inland wetland and watercourses permit” was necessary to assess alternatives before any alteration to wetlands occur.

(Secretary Slate did not attend this site walk.)

The Commission walked the site. It was recommended this application be amended so that no drainage of wetlands would occur.

Respectfully Submitted,
Philip S. Chester, Town Planner
